

User manual for GoMowe Spray gun and grinding compound.

1. Unscrew the container from the spray gun.
2. Stir and shake the grinding compound until the contents are fully mixed.
3. Fill the spray gun container with the grinding compound.
4. Screw the container back onto the spray gun.
5. Connect compressed air to the spray gun (minimum 4 bar, maximum 8 bar).
6. Turn the small air valve (located at the top of the spray gun) counterclockwise until you hear a hissing sound and see the grinding compound bubbling slightly.
7. The spray gun is now ready for use. Operate the spray gun at an angle of approximately 30-35 degrees, ensuring the grinding compound hits the wide side of the reversing blade.

Best regards,
GoMowe ApS
